Recommend Our Service To Others ? : Yes Comments : My ID; Angel is truly the reason why I  
sign up with Ciseern. I have done several researches before I commit myself to a contact  
and honestly Ciseern is not the best company that meet my needs especially in terms of  
budget. However, my interaction with Angel at Singapore Expo convince me otherwise; I sign  
up immediately because I know that I am paying for quality service and most importantly, I  
will be working with a professional, sincere and "real" ID that listens to our needs  
and work towards our dream home. She fulfils all promises and never disappoints us.  
Along the way, Angel is more than just an ID to us, she became our close friend. She shows  
her appreciation to everyone she work with and my conversations with her contractors are  
testament to that. She is indeed an asset to the company because she truly believe in her  
work and her commitment to Ciseern.  
The above comments are feedbacks based on my wife and I. As our contract comes to an end  
with the handling over, I am sure that this collaboration will not. I will definitely  
recommend my friends to Ciseern especially to Angel as their ID.  
Thank you once again for all the efforts put into making our home a reality.
